

*How Do I Turn Off My Pop-Up Blockers?*

## POP-UP BLOCKER ISSUES WITH “e for me”

If you are using Firefox and having trouble logging into the new “e for me” system, one problem could be your pop-up blocker. Your pop-up blocker must be turned off or allow pop-ups from Edwards in order to login and access your online account. Below are a couple options to fix this problem:

### 1) To access pop-up blocker settings in Firefox:

- At the top of the Firefox window, click the **Firefox** button (tool menu in Windows XP) and then click **options**
- Select the **content** panel
- Place a check next to the **Block pop-up windows** option to enable pop-up blocker if it has been disabled. Uncheck this to disable the pop-up blocker altogether.

### 2) To allow a specific site to display automatic pop-ups:

- Click the **Exceptions** button next to the **Block pop-up windows option**
- Enter the address of the site (URL) that you want to allow pop-ups for (epic.picbusiness.com) in the **Address of web site box**
- Click the **Allow** button to add the site to your exceptions list
- Click the **Close** button
